RISK ASSESSMENT

Location: Kennel Lane, Albrighton, WV7 3DP	Risk assessment title: Albrighton Cricket Club Covid-19	Risk assessment number: 200719/DS/DM	RA Revision: R-001	RA Revision Date:
Risk assessments also required to be signed off: N/A				

Hazard	Persons Affected	Risk	Current Control Measures	Current Risk Rating (L x S = Total)			Revised Control Measures	Revised Risk Rating (L x S = Total)			Resp.	Date Completed
				L	S	T		L	S	T		
1 Congestion on car park when players and visitors arrive at club, particularly with rules stating that players must travel separately unless part of a bubble.	Club Reps, visitor, opposition	Cross contamination of COVID-19	Gate opened up to allow for parking on grass to ease congestion in Car Park.	2	4	8	Signage of instructions to comply with social distancing rules. Parking to be 1 metre apart to limit contact with other persons.	1	4	4		
2 Congestion of personnel in and around front of clubhouse behind front wall.	Club Reps, visitor, opposition	Cross contamination of COVID-19	Limited seating in area.	2	4	8	Players instructed to utilise wider spaces in and around ground to sit between play. Players asked to bring their own seats to sit on. Current benches by clubhouse for scorers only.	1	4	4		
3 Congestion of people when access required to changing rooms.	Club Reps, visitor, opposition	Cross contamination of COVID-19	ECB guidance states players to be requested to turn up to play already dressed in whites. Padding up to bat needs to be done outside or in car.	1	4	4	Changing rooms closed.	1	4	4		
4 Congestion of people trying to access toilet. Especially when crossing in corridors.	Club Reps, visitor, opposition	Cross contamination of COVID-19	Signage to state need to social distance in place.	2	4	8	One way routes to be defined through building to prevent need to cross in corridor. Give ways to be added at points where corridors join.	1	4	4		
5 Congestion in toilets due to toilet being over capacity.	Club Reps, visitor, opposition	Cross contamination of COVID-19	Signage to state need to social distance in place. Hygiene signage in place.	2	4	8	Maximum capacity for toilet to be decided. Only one urinal to be used at any one time.	1	4	4		
6 Poor hygiene in toilets after use.	Club Reps, visitor, opposition	Cross contamination of COVID-19	Toilet cleaning schedule in place.	1	4	4						
7 Spreading of germs by touching handles when accessing toilets in club house.	Club Reps, visitor, opposition	Cross contamination of COVID-19	Hand cleaning signage in place.	2	4	8	All doors on one way to be wedged open to limit need of contact on door handles. Hand sanitisers to be readily available. All touchable handles etc. need disinfecting regularly.	1	4	4		
8 Congestion accessing the bar area.	Club Reps, visitor, opposition	Cross contamination of COVID-19	Signage to state need to social distance in place.	2	4	8	Bar area closed for access of public until advised by ECB/Government Temporary Bottle/Can bar in place from patio doors. Orders taken outside club. All Payments preferred by Contactless	1	4	4		
9 Congestion of Club reps working on temporary bar.	Club reps.	Cross contamination of COVID-19	Signage to state need to social distance in place.	2	4	8	Limited number of club reps at one time following social distancing. If 2 metre distance not possible, PPE must be worn.	1	4	4		
10 Congestion of people being in close contact whilst drinking.	Club Reps, visitor, opposition	Cross contamination of COVID-19	Signage to state need to social distance in place.	2	4	8	Visitors actively encouraged to follow social distancing guidelines. Visitors encouraged to bring own seats and to spread out across the whole ground when enjoying drink.	1	4	4		
11 Contamination being passed by handling of glasses by multiple people.	Club Reps, visitor, opposition	Cross contamination of COVID-19	Under current guidelines Plastic glasses to be used til June 17th at the earliest. Glasses cleaned after every use. Signage about hygiene in place.	2	4	8	Club Reps working bar to regularly sanitise hands during service. Review possibility of using plastic cups for service, this will also reduce risk of damage due to drinks being drunk outside.	1	4	4		
12 Contamination being passed by handling of Ground Machinery	Groundsman	Cross contamination of COVID-19	Groundsman to Sanitise before and after use of equipment	2	4	8	Signage in Groundsman Garage and Sanitisation available	1	4	4		
13 Contamination being passed by handling / use of Bowling Machine	Coaches	Cross contamination of COVID-19	Coaches to Sanitise before and after use of equipment. One Coach to use machine per night.	2	4	8	Advice to coaches and Sanitisation available	1	4	4		
14 Isolation of Visitors & Spectators	Spectators	Cross contamination of COVID-19	Notices in place to encourage all spectators / visitors not in players "bubbles" to sit away from players and families. Visitors to be in maximum of 6 in group size.	2	4	8	New notice at entrance to clubhouse	1	4	4
